	Existing	Proposed
Total water requirement(in cusec)	0.00	0.69

Water required for : 0.69 Sources of water for : IDCO supply
production(in cusec) Production

Waste Water Management

Quantum of recycling of waste :
water(in cusec)

Waste conservation measures : 

Waste water treatment : 
technology and management of

solid/hazardous waste

QUERY DETAILS

Sl#	Query Type	Remarks	File Name
1	Initial Setup Query	As per GOSWIFT application land requirement for your proposed project is 4 Acres in Jatani, Khurda district. But you have mentioned that no land requirement from govt. So please clarify.	
2	Initial Query Response	The total Land requirement for the Project is 4 Acres. Inadvertently in the GOSWIFT application form it was mentioned that no land is required from the Government. The Company requires land from the Government preferably adjacent to its existing textile manufacturing unit situated at IDCO Plot No 9,18,19 Chhatabar Industrial Estate, Khorda. This will result in synergy in operation between the existing unit and the proposed new unit (Unit -II) .	
3	Second Setup Query	Please provide the actual Water and Power requirement . Also share the raw material source.	
4	Second Setup Query Response	1. The Power requirement for Plant will be 150 KWH 2. The Water requirement for the Plant and manpower will be 0.034 Cusec 3. The major raw materials will be sourced from local market . The Raw material required for manufacturing of textile is fabrics and sewing consumables like cotton, threads, bottoms etc will be locally procured and are readily available in the domestic market. Raw Material required for construction of Training and Accommodation Facility like Sand, RCC, Mortar, Plaster, Aggregates, Bricks , Paints and Tiles etc will mainly be procured from the local market .	
5		1. The Power requirement for Plant will be 150 KWH 2. The Water requirement for the Plant and manpower will be 0.034 Cusec 3. The major raw materials will be sourced from local market . The Raw material required for manufacturing of textile is fabrics and sewing consumables like cotton, threads, bottoms etc will be locally procured and are readily available in the domestic market. Raw Material required for construction of Training and Accommodation Facility like Sand, RCC, Mortar, Plaster, Aggregates, Bricks , Paints and Tiles etc will mainly be procured from the local market .
